Remember...

“Wine is an enigma

A happy conspiracy between the grape, soil, weather

And the skill of the wine maker,

The answer lies on your palate”

OUR PHILOSOPHY

Sustainability and traceability are becoming more and more important to us and to our guests, so look for the symbols below on the list to help you choose a wine most suited to you.

Organic (Org)

Organic Wine is made with no added synthetic pesticides, herbicides or any other chemicals like artificial fertilisers. The wines are accredited by the country's relevant organisation such as The Soil Association of Britain. Many more producers operate to “organic principles” but may be too small or too stubborn to go through the rigorous certification process.

Vegetarian (V)

It may seem that a beverage made from pressed and fermented grapes should be vegetarian, but animal derivatives can be used in the fining process, such as Isinglass for example.

Please inform us of any food allergies or special dietary requirements.

Vegan (VG)

Vegan wines don't contain fining or clarifying agents (like egg white or Casein).

Sustainably Produced (SP)

Sustainable Wine growing is a comprehensive set of practices that are environmentally sound, socially equitable and economically viable. They work to conserve energy, maintain healthy soil, protect air and water quality, enhance relations with communities, preserve ecosystems and improve the vitality of vineyards and wineries. Different wine regions have different challenges and each country has their own certifying body.

Vintages are subject to availability.
